Quick Reference Guide: Deleting a Safety Designate in NSIS

1) In the menu bar, click on “Edit.” In the dropdown menu, select “Safety Designate.”

2) Next to the line “Would you like to assign a Safety Designate?,” click “No.”
3) Click “Next Screen” and your Safety Designate has been deleted.

4) You may see a screen asking you to complete additional information.

Additional “quick guides” for commonly performed NSIS tasks can be found at [http://www.research.northwestern.edu/ors/nsis](http://www.research.northwestern.edu/ors/nsis).
